

Signage Around The Village

The CHOOSE SOAP tape can be used to mark off specific areas that the Change Agents feel are worth drawing attention to as sites that work to remind people to use soap to wash their hands.

This could be a water pipe or tap, the route to or from the latrines or even a public washing area. It can be laid out on the ground, moored down with rocks, tied to trees or fencing or stretched between walls.

The CHOOSE SOAP logo can be used to badge local shops and tea houses: anywhere the Change Agents believe the message will be relevant.
